

Program 1: Arithmetic Operations

Input:

10 3

Output:

Addition: 13

Subtraction: 7

Multiplication: 30

Division: 3

Modulo: 1

Program 2: Square Root

Input:

49

Output:

Square root: 7.0

Program 3: Greater Number (Ternary)

Input:

15 25

Output:

Greater number: 25

Program 4: Area of Circle

Input:

7

Output:

arduino

Area of circle: 153.93804002589985

Program 5: Second Largest

Input:

10 25 15

Output:

Second largest: 15

Program 6: Leap Year Check

Input:

2024

Output:

Leap Year

Program 7: Area of Scalene Triangle

Input:

6 8 10

Output:

Area of scalene triangle: 24.0

Program 8: Calculator Using Switch

Input:

java

Enter two numbers and operator (+ - * / %):

20 5 +

Output:

makefile

Result: 25

Program 9: Perfect Square Check

Input:

36

Output:

Perfect Square

Program 10: Discount Comparison

Input:

1000

Output:

Discount by Shopkeeper 1: 300.0

Discount by Shopkeeper 2: 280.0

Program 11: Time Period of Pendulum

Input:

1 9.8

Output:

Time period: 2.0060666807106475

Program 12: Salary Calculation

Input:

10000

Output:

Gross Pay: 14500.0

Net Pay: 13250.0

Program 13: Difference Between CI and SI

Input:

1000 10 2

Output:

Difference between CI and SI: 5.0

Program 14: Share Calculation

(No input needed)

Output:

Current shares: 200

More shares to buy: 2800

Program 15: Swapped Digits and Comparison

Input:

42

Output:

Swapped Number: 24

42 is greater
